## BRICK

### Description

Very thick PU plotter cut material, with polyester backing, available with matt or glossy finish.

Despite the outstanding thickness, the material grants easy cutting, weeding and application and a high washing resistance.

Suitable for cotton, polyester, performance wear, poly/cotton blends and spandex, not treated or dye sublimated

**Average thickness**  
1000 microns

**Suggested cutting settings**  
blade new at 60°  
pressure 150 gf  
speed 10 cm/sec

### Usage

**N.B. : for a smooth application preheat the press for 2 minutes at 155°C. Due to thickness it is possible to cut letters of 2 cm height minimum.**

- Mirror cut the material
- Weed the exceeding material
- Place the material on the garment with its polyester backing
- Heat apply at the conditions shown on the right
- Remove the support cold

**Transfer settings**  
20 seconds at 155°C (310°F)  
medium pressure (3-4 bar)

### Washing

Wait at least **24 hours** from application before washing.

Washing resistance up to **60°C**, best inside-out.

Do not use bleach or other aggressive chemical agents.

Not suitable for dry cleaning

Suitable for tumble dry, cotton program

Washing temperature

Dry cleaning

Tumble dryer

The product is REACH compliant  
The product is certified Öko-Tex® Standard 100 Class II

**N.B.** All information here contained are based on our experience.  
We recommend to perform a test before starting standard production.  
For best results we suggest to store the product away from sunlight and dust, in vertical position and at temperatures between 18°C and 26°C

Management System  
ISO 9001:2015
